BERWICK'S HERITAGE FOOD TRAIL DIRECTORY OF PRODUCERS

www.berwickfoodandbeerfestival.co.uk

Berwick-upon-Tweed has a unique position situated at the mouth of a great river on the border between England and Scotland. The surrounding area is home to farmers, cooks and fishermen deeply committed to producing food and drink of outstanding quality.

This leaflet, produced by Slow Food Berwick, gives details of quality food and drink from the surrounding area. The Slow Food movement is committed to supporting local businesses that produce and supply ‘good, clean and fair food’ – wholesome food and drink at a fair price to the producer or supplier.

If you are a producer who wishes to be added to this leaflet, know a producer who you think should be included, or are a consumer with any queries and wish to learn more about Slow Food, please visit our website:
www.berwickfoodandbeerfestival.co.uk.

The directory is arranged by class of produce. Most of these businesses are well known to us either because we have visited them as part of our programme of events or they support the annual Berwick Food & Beer Festival.

*Businesses marked with * are supporters of the festival either as stallholders or through supporting the events at the festival.*
